

DISTRIBUTEL'S INTERNET NETWORK

Be well connected!

Internet

Advantages

Whether using dial-up, High Speed or dedicated access, our Internet service offers several packages that will help your company combine speed with the high quality service you need, at rates to meet any budget.

Distributel's Internet access provides your business with:

Leading edge technology

- We use our very own routing and switching equipment;
- We work with large, well-known partners to link our customers to our broadband backbone using their copper wires or their fiber optics;
- Our network is made up of robust and redundant multiple-fiber access, located in secure installations, provided with continuous power supply;
- Thanks to round-the-clock network surveillance, availability standards of our bandwidth are comparable or superior to the competition's.

Outstanding service

- Distributel promotes the development of personalized solutions using a direct and dependable approach based on listening, interacting and understanding our customers' Internet needs;
- Our engineers, technicians, network managers, and customer service professionals have the knowledge, availability, and experience to meet all of your needs.

With its robust and redundant multiple-fiber network, Distributel offers a full range of Internet access methods such as dial-up, High Speed (ADSL), and broadband dedicated access.

Our packages combine simplicity, reliability, flexibility, and competitive prices. We take the time to understand our customers; that's why we provide all of the tools and support needed to help them use their Internet access to increase their output and meet their business objectives.

Our Internet Access Services

Dial-up Access - Our Internet Access Package with Web Accelerator uses software that increases the speed and efficiency of your Internet service. Web Accelerator uses a compression algorithm that enables you to transfer much more information using the same bandwidth.

High Speed Access - Our High Speed Access Package uses ADSL access which enables your business to surf, make telephone calls and transfer data simultaneously at high speed.

Dedicated Access - Designed for businesses requiring high-output Internet, our dedicated access provides a quality, uninterrupted service, all the time. Maximize your business performance and save time and money!

Distributel, the key for communication!
